CRUISE

the WHITES

White is the color that is seen dominating many collections at Resort 2013. With the minimal use of color, designers focused on creating strong yet simple looks. The White trend is often combined with shades of beige or black to create casual but sophisticated looks.

DAY LOOK

STYLE *under* SCRUTINY

Blake Lively

Six years into her breakout role on Gossip girl, the young actress has become a force of fashion. She decided to be her own stylist and the risk was worthy, since she's often been named Best Dressed Star. Blake is always confident and sexy as can be on the red carpet, wearing the most revealing and glamorous gowns. She is often seen with Karl Lagerfeld as one of his muses. For day time, she isn't afraid of showing her long legs, in a playful boho-girlie way. Blake's fashion style is a smashing success and that's not just a gossip...

NIGHT LOOK

LIFE *is a* CRUISE

Cruise Collections have always been about filling the space between fall and spring with summery pieces, plenty of print and color. If you are searching for some sunshine in your winter wardrobe, this is the place to look. We've chosen for you some of the sunniest trends from the collections. Smart girls love Cruise because they have the chance to be the first to dazzle in next season's trends!

BLACK *and* WHITE

After darker winter hues, white has always been the first color to give some fresh breath to our looks. Pair it with black and you'll get a polished note and a dose of minimalistic, monochromatic glint.

STYLE TIP:
Team your floral dress with a black blazer, so to ground the bright prints.

FLORALS

It's no surprise that the Cruise Collections show a big number of different floral prints. This year the florals go from tropical - Hawaii inspired to carnations and hothouse blooms.

BRIGHT COLORS

The new season is defined by a vibrant color palette, which we are never getting tired of, year by year...

Beautiful Skin TREATS

It's the beginning of a New Year, which gives you the opportunity for a skincare fresh start. After all the parties and celebrations, this is the perfect time to begin with a new beauty regime. Here are some tips on how to make your skin indulge in a complete beauty care:

1. Use Face masks. They are soaked in reach creams and serums, and because of that give your skin an immediate hidration boost.
 2. Start using an eye cream separately from the day cream, since the eye area is very sensitive.
 3. Be kind to your skin when cleaning it. Use gentle cleaners that are not drying the skin.
 4. Use serums with hyaluronic acid, which is improving the skin's ability to repair itself and hold water.
 5. Find the right day cream. Depends on your preferences, it can be a light moisturising fluid or a nurturing cream. Don't ever forget, it has to be with SPF!
 6. Choose the right supplements for you. Flax seed oil capsules are very good for skin problems.
