BLUSHING CHEEKS

Replacing the heavy contouring, and the glowing skin of summer, the blushing cheeks are the perfect answer to both autumnal and office beauty. Pale apricot, warm peach and rose blushes alike, will help you look fresh from nine to five.

THE VERSATILE OFFICE BAG

The new versatile office bag is made of immaculate leather with boxy lines. This styles have a luxe touch and are perfect both for the office and afterwork parties.

REVAMP YOUR OFFICE STYLE

How to look and feel chic from 9-5 while still keeping your outfit work-appropriate? It may be challenging but it can be done.

Here are 6 ideas to take inspiration from.

1. Midi-skirt

Business style doesn't have to be a boring affair. A calf length skirt with a subtle slit and a matching lightweight coat are the perfect answer to transitional weather and a long day spent at the office.

2. Summer dress

Dressing easy is not just for the weekends, especially when the breezy summer dresses look sharp and chic. Opt for one of your weightless summer dresses, polishing off the look with a tied waist and a pair of pointy flats.

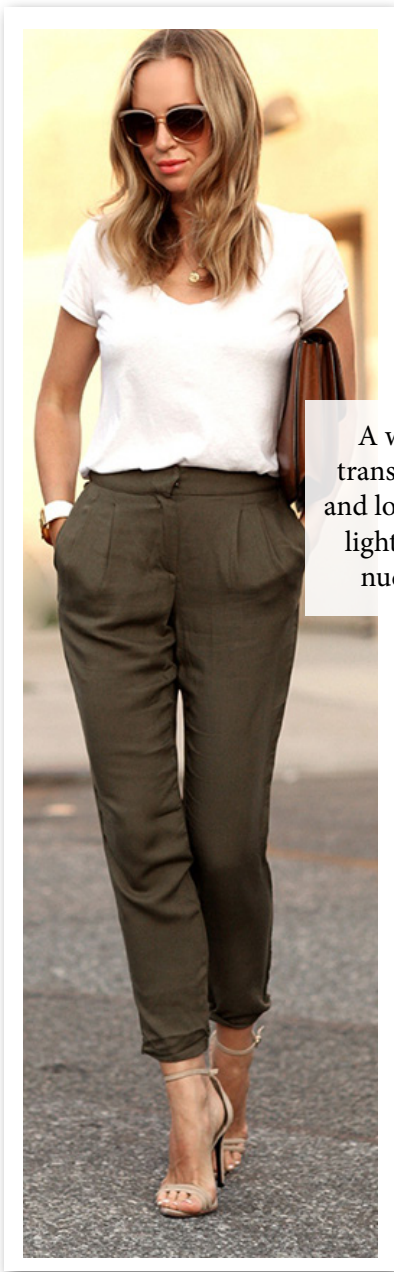

3. Pop of colour

If you're going for a statement office look, try adding a bit of vibrancy to an otherwise classic black and white ensemble. We're absolutely in love with Nicole Warne's yellow, sleeveless west!

4. Khaki pants

A white T-shirt can easily transition into work territory and look stylish when paired to lightweight khaki pants and nude ankle strap sandals.

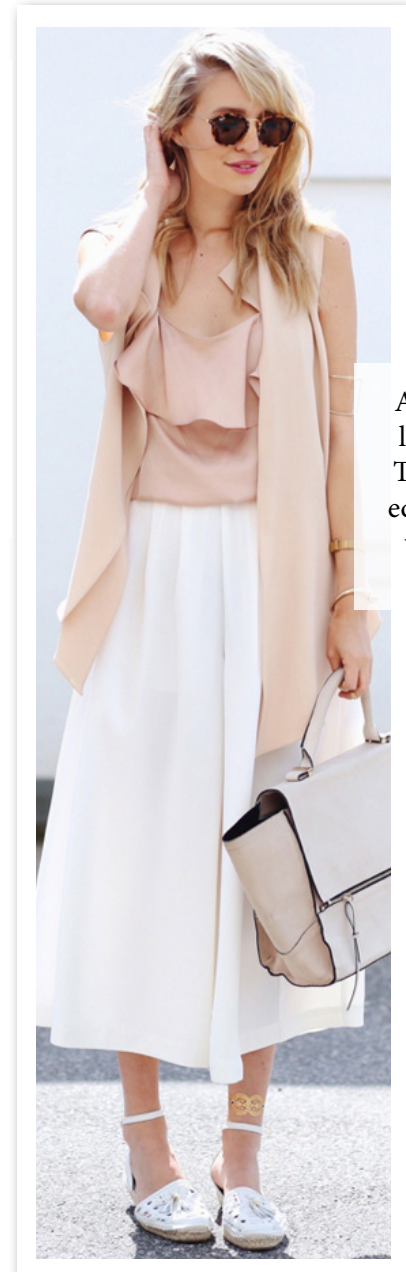

5. LBWD

What does the perfect little black work dress look like? We love the concept of this precious dress that is "professional enough for the office and casual enough for outside of the workplace".

6. Culottes

A pair of relaxed culottes look always office-ready. Team them to a couple of equally effortless layers on top, all soft-toned, silky and chic.
